EDUCATION

University of Mines and Technology (UMaT), Tarkwa, Ghana January 2022 – September 2025

Bachelor of Science in Computer Science and Engineering (First Class Honors) - CWA: 81.40/100

Ranked top 5% of the graduating class.

Relevant Coursework: Human Computer Interaction, Artificial Intelligence, Data Science Fundamentals, Software Engineering, Research Method and Ethics, Operational Research, Introduction to Computer Programming, Digital Systems Design, Database Systems, Computer Graphics, Critical Thinking and Integrated Thought, General Psychology, Data Structures and Algorithms.

PROJECT AND RESEARCH EXPERIENCE

Intelligent Digital Counselling Platform for Universities January 2025 – August 2025

- Led a 3-person student team to investigate the psychosocial barriers to student mental health through direct interviews with over 50 students and consultations with the UMaT Counseling Unit, using this qualitative data to architect a trust-based, anonymous user experience.
- Built a full-stack, AI-driven mobile app that provides anonymous support, intelligent counselor matching, and automated pre-session analytics.
- Platform validated by a university counselor and is now under consideration for formal adoption by the UMaT Counseling Unit.

WORK EXPERIENCE

Coasted Code, Accra, Ghana

September 2026 – Present

AI, Programming & Robotics Instructor

- Teach AI, programming, and robotics to students from Grade 1 to Grade 8, adapting lessons to different age groups and learning levels.
- Design and facilitate hands-on, project-based activities that develop students' creativity, computational thinking, and problem-solving skills.
- Guide students in developing real-world technology projects at the end of each academic term, from ideation to implementation.

Navida Group of Companies, Kasoa, Ghana

March 2026 – Present

Social Media Marketer

- Manage and grow the digital presence for Navida's multiple brands.
- Create video content, 3D ads, and promotional materials.
- Improve engagement and brand visibility.

Bountiful Technologies, Accra, Ghana

January 2026 – September 2026

STEM Instructor

- Taught foundational STEM and computer science concepts to primary and junior high school students.
- Volunteered in organizing and supporting robotics competitions, assisting with student preparation, setup, and event coordination.

EnspireFX Websites, Accra, Ghana October 2025 – December 2025

Web Developer

- Gained hands-on experience in the end-to-end web development lifecycle, from conducting client needs assessments to designing mockups and developing full-stack websites with the appropriate technology stack.
- Contributed to key client projects, including Owusu and Family Law Firm and Obaakro News, where I was responsible for both UI/UX design and frontend development, iteratively refining the product based on client feedback.
- Authored and published news articles for the Ghanaian Standard, a digital media platform managed by the company, demonstrating strong written communication and content management skills.

Carlcare Service, Tarkwa, Ghana

August 2023 – September 2023

Intern

- Gained experience in mobile and computer hardware technology.
- Performed troubleshooting, fault detection, and repairs on laptops and mobile phones.

TEACHING EXPERIENCE

Home IT Tutor (Weekend), Accra, Ghana

May 2026 – Present

- Provide hands-on IT training to children in AI, Prompt Engineering, Robotics, and digital content creation.
- Develop practical activities that build children's creativity, problem-solving, and digital skills.

Frontend Skills Tutor, Ideation Axis Club, UMaT 2024 - 2025

As a senior member of a prominent UMaT IT club focused on skill development and competitive projects, I:

- Instructed 30 new club members on fundamental frontend skills (HTML, CSS, JavaScript)
- Prepared and mentored 5 junior members to participate in UMaT innovation fair 2025.

Peer Tutor, UMaT 2022 - 2025

Co-founded and led a four-year peer tutoring program called Graduate Together, conducting weekly tutorial sessions to assist course mates facing challenges with semester coursework.

LEADERSHIP AND EXTRACURRICULAR ACTIVITIES

Academic Board Member, Association of Computer Science and Engineering Students, UMaT

2025

- Organized and uploaded course materials for all levels into a Google Drive for easy access.
- Organized tutorial sessions for 17 students to prepare them for the resit examination, and all passed.

Electoral Commission Chairman, Association of Computer Science and Engineering Students, UMaT

2024

- Led the commission to oversee a transparent and convenient election for student association leaders.
- Developed and launched a secure online voting system to ensure fair and genuine election results.

Volunteer Polling Agent, National Election, Ghana

2024

- Represented parliamentary and presidential candidates of the New Patriotic Party at the Ablekuma Central constituency's polling station.
- Monitored voting to ensure adherence to electoral regulations and participated in the official vote count to ensure fairness.

Defender, Computer Science and Engineering Department Soccer Team, UMaT

2023 - 2025

- Participated in regular practices and competing in university-level leagues and tournaments.

- Together with the team, we managed to secure the 2nd spot twice for our department in both the 2023 and 2024 UMaT Departmental League.

CONFERENCES, PRESENTATIONS, AND POSTERS

Undergraduate Final Year Project Presentation on the Design and Implementation of an Intelligent Digital Counselling Platform for Universities.

August 2025

Department of Computer Science and Engineering, UMaT.

Presentation on the Key Role of Digital Systems in Counseling

March 2025

UMaT SRC Mental Health Awareness Fair

SKILLS AND INTERESTS

- **Technical Skills:** Web Programming, Mobile App Development, Artificial Intelligence, Frontend development, Machine Learning, Data processing and Analysis, Networking, UI/UX, Prompt Engineering, Database, Microsoft Office.
- **Languages:** Python, [React.js](#), React Native, MongoDB, JavaScript, HTML, CSS, SQL.
- **Interests:** Problem-solving, Research, Team Collaboration, Teaching, Artificial Intelligence, Robotics, Communication, Audio/Video Production, Digital Marketing, Content Creation, Gaming, Graphic Design.
